

Friendo

Owner's Manual

Welcome to **Friendo!** Thank you for choosing our game. We are thrilled to have you embark on this delightful journey with your new virtual pet. Get ready to explore a world of fun and connection with your **Friendo!**

- Press the talk button at the bottom of the screen to activate the microphone and begin talking to your pet.
- Press the stop button when you're done and enjoy its response!
- The space bar also activates the microphone when held down.
- Press and hold space bar to talk - release when you're done talking.

ABC

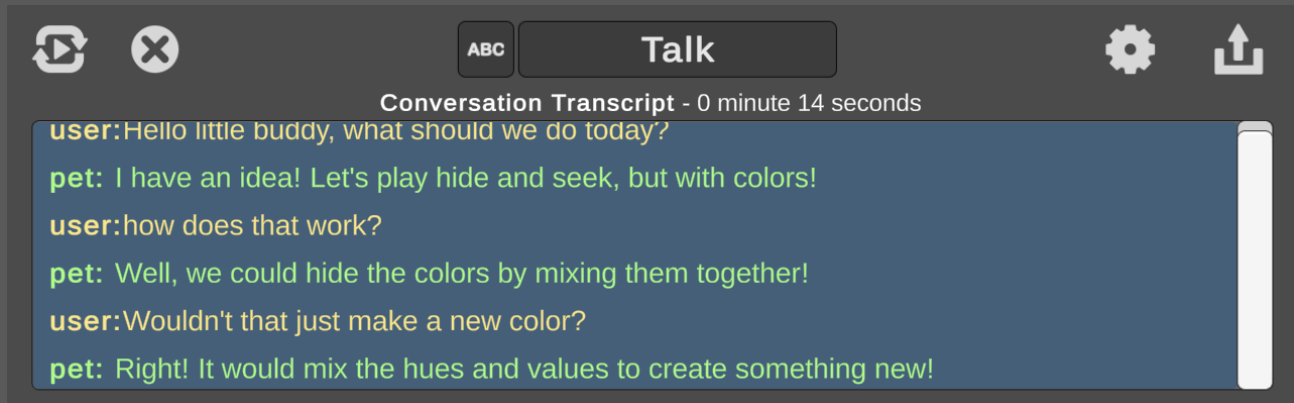

The button to the left of the talk button toggles between voice and text mode. Text mode allows typing a message rather than speaking. Press the microphone button to return to voice mode.

Friendo

Owner's Manual

The arrow at the bottom right of the screen is a button that opens a panel at the bottom.

- The panel displays the conversation transcript. You can select individual items or ranges of the conversation.

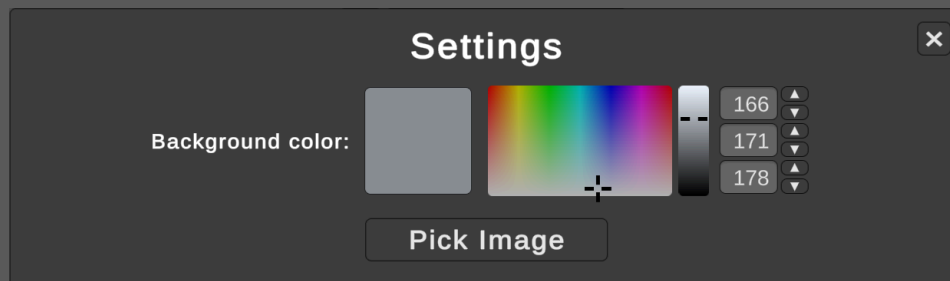

Press the replay button to replay selected portions of the transcript.

Press the clear button to reset the entire conversation.

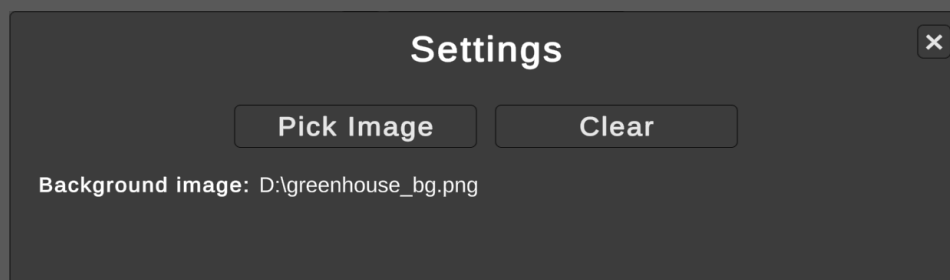

The gear button brings up the **Settings** panel, which allows you to select a background color or a background image.

The background image is stretched vertically to fit the view.

- If the view is wider than the image, the image will repeat. Clear the background color to return to a solid color.

The share button brings up the **Share Conversation** panel

- The selected portions of the conversation can be exported to a video file or copied to the system clipboard.
- Video can be exported in three formats:
 - Horizontal - **1920 x 1080** pixels
 - Square - **1080 x 1080** pixels
 - Vertical - **1080 x 1920** pixels
- When export is complete, the video will play using the default media player.

- There is also a button to open the export folder using the file browser for easy access to the exported video.

How to use **Friendo** with **OBS Studio** (Open Broadcaster Software)

- Launch **Friendo**.
- Launch OBS Studio and use the *Scene Collection* menu to create a new scene.
- Add a new *Game Capture* source and give it a name like "Friendo".

- Choose *Capture specific window* for the mode.

- Choose Friendo in the list of windows.

- Check the *Allow Transparency* option if you want to overlay **Friendo** on top of other content. Leave it unchecked to show the **Friendo** background.

Example source settings and resulting OBS scene:
